Introduction

Dr. A.K. Bansal – M.B.B.S., MS, FAIS, FCGP, FIAGES, Ph.D (Public Health Persuading) Is one of the renowned & Senior Laparoscopic & General Surgeon & Male Infertility consultant. He is a leading specialist in male infertility in the state of Uttar Pradesh. He is Director of 500 bedded Multispeciality & Superspeciality Jeevan Jyoti Group of Hospitals, Allahabad.

Dr. A.K. Bansal as honoured by the fellow medicos. Dr. A.K. Bansal besides an eminent Laparoscopic & General Surgeon & Male Infertility specialist, educationist, who has held many a select positions that of a visiting faculty, Director, He is Consultant, Advisor and Chairman, Advisory Council member chairperson in many events and organizations.

Dr. A.K. Bansal is an acclaimed Motivational Guru, Personality Developer and Counselor-par-excellence. He has been the founder of Jeevan Jyoti Hospital and Chief Executive Officer of Jyoti Hospital Nursing School, Jeevan Jyoti Institute of Paramedical Sciences for life skill personality assessment and development centre helping large number of individuals in upgrading their quality of life in actualizing their respectively goals. Dr. A. K. Bansal and his team appeared in Guinness World Record (GWR) for doing surgery of maximum number of Intracranial cysts removed from a 10 years old child, on 13 April 2011. Honoured by his exemplary professionalism in the area of surgery leadership training for doctors. He was later commended by the Guinness World Record for outstanding performance in the field of medical. The journalist forum I-Next conferred on him the distinction for his original contribution in the field of medical sciences.

His credo is two fold: Self is the cause and self is the effect and no religion is as great as doing good to others. One needs to concern oneself with oneself performing one's duties enthusiastically with a self identifying vision according to respective position in life for the universal good without concerning with the results. Keep working results follow is his Mantra. His belief is TQM-S-Total Quality Management of self. His mission is whole man who is physically enduring, emotionally mature, aesthetically developed, morally sound and spiritually inclined. His strategy is to transform the individual as effective role player to be useful to himself, to his family, to his organization, to his society, to his country, to the world his commitment is value addition to the individual personality of such persons who prefer to excel. He is a great catalyst to lead people to live life with dignity.

A great doctor Dr. A.K. Bansal is the author of eminence. He is writing books on (i) Male Infertility, (ii) Life Begins at 50, (iii) The Secret of Spiritual Happiness for value management is his latest publication. Training the trainers. Action and leading the team with joy are in the final lag for publication. His three titles are to be quoted extensively in research and training in India and abroad. He is the chief patron of a monthly journal. The central theme of the monthly journal is focusing on wisdom oriented contemplation – Devotional Commitment – Dutiful Conduct so as to be useful to oneself, to the family – to the society – to the country – to the world.

In most of the hospital and clinics everywhere patients are welcomed with stickers that read ***“Doctors treat, God cures”***.

This one-liner creates a sense of hope and uncertainty in the mind of patients. But Jeevan Jyoti Group of Hospitals, nestling on the banks of holy Sangam in Allahabad, spreads the light of life because many believe the doctor-couple. Dr. Vandana Bansal, a celebrated Infertility specialist, IVF expert & Gynaecologist and Dr. A.K. Bansal a well-known Laparoscopic Surgeon & Male Infertility Specialist have the divine healing hands which not only cures but also creates.

Enthusing Many A Life with Light & Hope

The dream to establish a world class multi-speciality hospital that provided affordable healthcare facilities and treatments led to the setting up of Jeevan Jyoti Hospital. It has indeed been a long journey for the hospital. From 1988 when it was setup to the present day, it has grown to be a well known multi-speciality hospital and infertility research centre in Allahabad.

Working as a team

The husband and wife duo of Dr. A.K. Bansal & Dr. Vandana Bansal has virtually changed the medical scenario of the region through sheer hard work and determination. Reminisces Dr. A.K. Bansal, “I belonged to a middle class family and my parents wanted me to take up a lucrative job abroad after I completed my medical studies. But just another routine job failed to charm me and I always dreamt of setting up a hospital on the lines of Mayo Hospital of USA, in Allahabad. Since I did not have the resources to start my project in bigger cities. I decided to setup my clinic in Allahabad from where I had completed my medical education.”

Early years were spent under the tutelage of late Dr. N.D. Tahliani, who was a renowned surgeon of his times. Dr. Bansal continued to hone his skills and learn extensively under Dr. Tahliani for several years. Things started looking up even further when he got married to Dr. Vandana Bansal in 1984. The couple was now a formidable team, with Dr. Vandana playing the role of a visionary and Dr. A.K. Bansal executing their plans and ideas. They complement each other very well, be it as husband and wife or as professionals. Dr. Vandana Bansal is a dreamer and am game for innovating and experimenting with new ideas. On the other hand Dr. A.K. Bansal foresight and hard work makes it possible to realize ideas and plans.

Express Healthcare – 50 Pathfinders – January-2009, The Alladin of Allahabad was honoured for being insight into the business of healthcare.

If you have seen the website of a unique and remarkable hospital, the Jeevan Jyoti Hospital-- the largest and most comprehensive medical center in east Uttar Pradesh which has appeared

in Guinness World Record (GWR) for doing surgery of maximum number of Intracranial cysts removed from a 10 years old child, on 13 April 2011.

The Medical Center of U.P. INDIA

Serving as a teaching hospital (affiliated with the U.P. State Medical Faculty, Lucknow and as a tertiary referral center, the Jeevan Jyoti Group of Hospitals uniquely combines largest Acute Care Hospital with its national Rehabilitation. Jeevan Jyoti Hospital, Allahabad merges as best advances in high-tech science and medicine with traditional healing services, including the finest nursing faculty and paramedical outstanding care for the elderly. Close to 2,000 health professionals – committed to the highest standards in medical diagnostics and personal medical service -- provide almost 80 thousand treatments and medical tests to more than one lakh patients a year at the Center.

Patient-friendly hospitals need of the hour (Jeevan Jyoti Group of Hospitals)

In today's world of rapid growth, healthcare organizations are accepting and implementing new and advanced technologies very promptly like any other industry India is one of the leading countries as far as modern advancements in healthcare industry is considered. People from various parts of world come here for their medical treatment and consultation, resulting in a boom for the medical tourism industry.

For any kind of hospital, whether primary, secondary or tertiary patients are the key. The success of the hospital depends on the inflow of patients. Therefore, it is essential for all hospitals to ensure that patient satisfaction scores a 100%. In achieving this, the main criteria is patient safety and privacy.

Patient safety and privacy are so imperative that they can not be ignored at any point in the entire treatment process and in any healthcare organization. In the inside the emergency department where a patient being treated by some doctors and nursing staff, a very good maintaining patient's privacy witnessed. Curtains is are put on as soon as patient was kept on the bed, as it was female patient, female nurse called to assist the doctor.

The Quality Council of India and many international bodies like JCI, WHO etc. have specified firm guidelines for patient safety and privacy in hospitals. Few examples are:

- Maintaining patient privacy while performing any surgical or invasive procedures like catheterization, preoperative part preparations etc.
- Covering the patients while transportation on stretchers.
- Taking special care while carrying vulnerable patients like using belts on wheelchairs and keeping bedrails on among others.

Mentioned above are only some of the points, which followed to maximize patient safety and privacy. Maintaining patient safety and privacy is a continuous process and is the responsibility of all medical, paramedical, support and management staff. Training and development programs for the hospital personnel help to a large extent in process.

In this era of Internet where every question has an answer on google, most of the people are aware of their rights, what kind of hospital they are going to, what facilities are being provided to them. So it is not an easy task to win their trust.

So, by providing a safe environment to a person who is ill and needs care, will definitely enhance the person's confidence in that hospital and in turn elevate the patient satisfaction score. In addition, it contribute to the healing process.

Patient-Centered Approach to Healthcare

A patient-centered approach defines healthcare philosophy. We aspire to treat the "whole person" with compassion and sensitivity to individual needs -- as if each patient was our only patient! Although we are a large medical center, the "spirit" provides each of our patients and their families with a human touch.

Medical Excellence & Technological Advancement

Jeevan Jyoti Hospital faculty practices the highest standard of care, using the most technologically-advanced medical innovations. We are already known for pioneering technologies that have saved lives and improved the quality of life for numerous patients. We know, however, that we cannot stand still if Jeevan Jyoti Group of Hospitals is to remain at the leading edge of medical and technological innovation, so to this end, we invest in research and clinical trials. Moreover, senior medical faculty is "open-minded" -- constantly expanding its horizons by the maintenance of high-level collegial contacts with leaders in medicine surgery and by the conduct of an intensive program of exchange visits with the best medical centers of India.

Revolutionizing Medical Standards and Education

The Jeevan Jyoti Hospital seeks to lead a revolution in global healthcare standards in order to reduce and prevent errors in medical treatment and service. Adopting training methodologies and operational assessment techniques and protocols. Jeevan Jyoti Hospital has forged a new path in medical education and professional development.

Close Ties to Industry

In addition to providing patient care, the Jeevan Jyoti Hospital places the development of new medical technologies at the center. Basic scientists and clinicians work in close synergy with tie-up with 48 TPA's and government organization for the direct benefit of the patient. The transfer of technology and the licensing of intellectual property are increasingly important components of our work. In this way, Jeevan Jyoti Group of Hospitals is able to link medical care to the needs of clinicians and patients, in peripheral centres

International Reach

Jeevan Jyoti Hospital – Arpit Test Tube Baby Centre commitment to compassionate care extends beyond borders, have provided support in distant areas of need throughout to infertility couples, including, Sri Lanka, Bangladesh, Pakistan. Patients come to JJH from across the Middle East from Arab countries. Jeevan Jyoti Hospital is extending its medical services to many countries, and maintains a special agreement with the Indian scenario. These commitments stem from hospital's concern for the needy, and from the State of long-time tradition of contributing to humanitarian relief efforts.

Future Growth and Innovation

Transformed the Jeevan Jyoti Group of Hospitals since then has grown into a 500 bed, ultra-modern hospital facility and teaching educational centres spread across a 50-acre campus, with scientific ties.

Today, we look to lead the next-generations' advances in various medical disciplines, including cath lab (cardiology), cancer treatment, genetics, stem cell and medical education, in a hospital environment where clinical treatment and medical research are closely intertwined, working closely with the bio-tech and medical industries.

Jeevan Jyoti Group of Hospitals is a Joint Commission Nationally & Internationally Accredited, 500 bed facility providing multidisciplinary healthcare services under one roof. The hospital is under the direction of the Center for Healthcare Planning and Quality as specified in the Government of India and U.P. Government.

Opened in 1988, Jeevan Jyoti Hospital was the first acute tertiary care hospital in Allahabad Healthcare. Our mission is to be recognised as the leading healthcare provider in the region. Our vision is to enhance the quality of life of patients and clients throughout our network by providing high quality, cost-efficient, multi-disciplinary medical services delivered with a personal touch.

At Jeevan Jyoti Hospital we foster, promote and practice high quality, ethical, evidence-based medicine. The staff are committed to delivering professional services and outstanding hospitality. These services are provided for all individuals in accordance with their needs and with acknowledgment and respect of cultural diversity, including race, religion, nationality, gender, sexual orientation, age, disability and financial status.

Our major focus is to establish and promote collaborative partnerships between individuals served, staff and families in order to maintain an environment where services and treatment are provided with dignity and respect to all. We at Jeevan Jyoti Hospital recognise and encourage full participation from patients and their family members. We also recognise the need for staff training, ongoing continuous medical education and the importance of patient and family education.

We cannot achieve our mission, vision, values or our associated goals and objectives without help from all our staff. We encourage staff at all levels of the hospital, individuals served, families, friends and other interested parties to become engaged and involved in the provision of care and treatment provided. At Jeevan Jyoti Hospital we encourage you to ask questions regarding the various aspects of the hospital and its operations. We welcome all staff to become constructively involved in suggesting ideas, identifying opportunities for improvement and participating in continuous improvement in order to advance the operational effectiveness and efficiencies of Jeevan Jyoti Hospital. We want to ensure that ideas, comments and concerns receive prompt and courteous attention from our staff.

Jeevan Jyoti Hospital offers a wide range of services, one of which is guaranteed to meet all needs.

Dr. A.K. Bansal is associated with a number of educational, social and spiritual organizations/federations/confederations. His endeavor has been to promote and sustain value based professionalism in the working of leading organizations.

Guinness World Record (GWR) made at Jeevan Jyoti Hospital, Allahabad (JJH) in cooperation with Jeevan Jyoti Research Centre (RC) and Jeevan Jyoti Charitable Trust, Allahabad (JJCT).

MADAM TARIKA VARA
17 HANOVER SQUARE, LONDON CAME
VIA DUBAI TO PRESENT
INTERNATIONAL AWARD GUINNESS BOOK OF WORLD RECORD
TO
DR. A.K. BANSAL of JEEVAN JYOTI HOSPITAL, ALLAHABAD
DR. VANDANA BANSAL ON 09TH NOVEMBER 2012.

The creators of world record is Jeevan Jyoti Group of Hospitals, Allahabad. When it comes to healthcare potential, U.P. cannot be found lacking, in the world scenario. But this potential has meaning only if supported by opportunity. Where Dr. A.K. Bansal & Dr. Vandana Bansal succeeded from creating new records, bring development to the existing infrastructures in healthcare, helped people of not only Uttar Pradesh but whole India and abroad named and

famed and leaving no stones unturned to help Uttar Pradesh and India prosper in healthcare projects.

We all know that, humble way of thanking for those who are making sure that our Uttar Pradesh and our nation is moving forwards towards healthcare projects for a better tomorrow are working tirelessly in the field of health.

Allahabad, one of the large cities of U.P. state of India, is in global map for Maha Kumbh, garlanded by three rivers The Ganga, The Yamuna and the Mythical Saraswati (SANGAM), is famous for its rich intellectual past heritage and for giving in our country and to the world several eminent personalities in different walks of life. As Allahabad is significant so also Jeevan Jyoti Group of Hospitals, its research centre and charitable trust (SANGAM) excelled in health scenario which got place in Guinness World Record has been awarded the distinction of being receiver of Guinness World Record certificate.

Pt. Keshri Nath Tripathi earlier Sr. Advocate of Hon'ble High Court Allahabad, speaker of Vidhan Sabha Uttar Pradesh, Governor of West Bengal has inaugurated and participated in many programmes of Jeevan Jyoti Group of Hospitals and appreciated endeavours of Dr. A.K. Bansal and Dr. Vandana Bansal.

JEEVAN JYOTI HOSPITAL 162 Bai Ka Bagh, Lowther Road, Allahabad-211003 (U.P.) INDIA is a name to reckon for healthcare services provided in Uttar Pradesh and central India since 1988. From 08 beds in 1988 to 500 beds in 2014 having almost all facilities under one roof, with an advanced multispeciality and superspeciality hospital, diagnostic centre, IVF centre and a research centre along with paramedical & Nursing School with different charitable ventures, training centre for various government projects. Serving 45 TPA's RSBY, NRHM and other government projects and 30 government organizations as healthcare service provider and dream to set up a Medical University very soon.

Mission is to bring healthcare of international standards within the reach of every individual. In this process Jeevan Jyoti Group of Hospitals, Vandana Women's Hospital, Arpit Hospital Ltd. was established and became the only hospital in Allahabad, only hospital in U.P. state, only hospital in India, only hospital in Asia, only hospital in the continent to get place in Guinness World Records.

Guinness World Record is trusted as the ultimate authority on human achievement and world we live in. *Guinness World Records* bestowed the record of "Person with the most records".

In 2005, Guinness designated 9 November as *International Guinness World Records Day* to encourage breaking of world records; it was described as "phenomenally successful".

Jeevan Jyoti Hospital, Allahabad has successfully set the Guinness New World Record of in relation to operation on behalf of 10 years old girl on 13th April 2011 in a seven hours long operation at Jeevan Jyoti Hospital, Allahabad. This is a great news for not only India but also for "Whole of the World". While patient is quiet hail and hearty till date, she is very much relieved of her problem. This great feat was achieved for the first time in the world and it is being reported in the Medical Sciences literature also.

In order to commemorate this "Grand World Record Beating Achievement" and to give moral encouragement and support to the patient, **A Very Poor Girl**, who played a key role in this world record, Jeevan Jyoti Charitable Trust beared entire expenses of the operation as usual of their activities as charitable trust, serving the poor regularly since a decade.

Arpit International Fertility Institute & Test Tube Baby Centre

Arpit Test Tube Baby Centre, a unit of Jeevan Jyoti Group of Hospitals, Allahabad was established on 18th December, 1999 and inaugurated by Shri Suraj Bhan Ji the then Governor of U.P. and Dr. Murli Manohar Joshi the then Union Minister HRD, Science & Technology Govt. of India.

Arpit Test Tube Baby Centre is established with the aim to provide full range of management of couples suffering from infertility with the latest state of the art technologies in the field of reproductive medicine. The recent advances in the field of assisted conception / reproduction are added time to time. The centre offers preliminary investigations, ovulation induction, secondary sperm function testing, intrauterine insemination (IUI), donor sperm treatment, in-vitro fertilization (IVF), intracytoplasmic sperm injection (ICSI), IMSI, IVM, laser assisted hatching , male infertility & impotency treatment, oocyte donation and cryo-preservation of sperm and embryos etc.

IVF Success rate of Arpit Test Tube Baby Centre is consistently very high and at par with International Standard.

There is a future because a natural substance met a natural substance in an unnatural place.

It has been our continuous endeavor to bring latest techniques to Allahabad and keep our self abreast & updated with the fast changing scenario international in the field of infertility.

Educational Approaches

Jeevan Jyoti Institute of Medical Science – B.Sc. (Nursing), GNM, ANM & Paramedical Courses:

Works on the motto of holistic education for its students. Hence every measure is taken to assure that their progress does not remain constrained to the classrooms. Ample scope for extracurricular activities along with classroom syllabus keeps the student at par with best of the institutes. The campuses are ideally located and landscaped stunningly to create a peace of mind and make the environment academically inductive.

Vision & Mission

Our Vision

We aspire to reassert the significance of high quality education by producing competent nursing & paramedical who can shape the destiny of our nation into a stronger and developed stature.

We envisage that high quality education using interactive methodologies will equip students to excel as a professional. The values instilled among students while imparting education, will strengthen the moral and ethical fabric of the nation and revive the human spirit. The zeal of competitiveness will always be positive and setbacks will only be catalysts for greater achievements.

With these beliefs, the Jeevan Jyoti Group of Institutions will strive towards faster evolution and will make in marks on the Indian & Global academic map.

Our Mission

We at Jeevan Jyoti Group of Institutions aim at creating a workforce of professionals with analytical skills who can dream a better world and transform the dream into reality.

We have created a dynamic and collaborative climate to broaden our students in hospital competence; and build an institute that is resilient, flexible and productive. We are recognized for high ethical standards and responsiveness to the social environment in healthcare.

Academic Support System

Academic System is the core, the backbone of an academic institution. It determines the quality of academic delivery. Vision for achieving excellence by providing outstanding education has driven Jeevan Jyoti Group of Institutions to adopt an academic system that meets the global standards. At Jeevan Jyoti, the academic system not only fulfills the needs of multi-skilling and broad based knowledge but also develops core competence in the students. The four basic ingredients of contemporary education system viz., faculty, students, infrastructure and curriculum are perfectly blended to ensure our mission of creating a dynamic collaborative climate.

Instructional Methodology

- The faculty at Jeevan Jyoti Group of Institutions use innovative teaching methods in synergy with research knowledge and corporate experience to make the strategy and experience thought provoking and global in its perspective. A variety of strategies and methods are used which cater to multiple learning styles to help students retain information and strengthen understanding and to ensure that all students have equal opportunities to learn.
- The education system and teaching methodology is uniquely designed to articulate various facets of the identified Key Result Areas (KRAs), on the pattern of continuous evaluation and monitoring system with credits allotted for each 'Class-Test Cycle' followed by a 'Mid-Term-Examination'. This system boosts hard work, creativity, knowledge and discipline not only in students but also in faculty ensuring an enviable state of alertness and confidence.

Awe-inspiring Academic Infrastructure

Jeevan Jyoti Group of Institutions inspiring infrastructure provides the students with an excellent environment to pursue their academic passion and for outstanding academic delivery. The campuses span a big amount of land Apno Gaon, Rewa Road, Allahabad comprising lush green lawns dotted with hi-tech laboratories and modern buildings. The campus offers a fusion of environment, resources and support to maximize the quality of the student experience.

Life at Jeevan Jyoti Group is an amazing experience on the beautiful campus, which is an example of architectural innovation and functional convenience. The Wi-Fi enabled campus provides essential energy for a dynamic academic community. The campus has an entity and a significance that goes beyond the books and classrooms.

Learning Infra

The spacious lecture halls, e-class rooms, Conference Halls, Induction Halls, Auditorium, Meeting rooms are well equipped with all latest gazettes, viz., ceiling mounted LCD Projectors, OHPs, Slide Projectors and other Audio-visual equipments providing environment conducive for teaching and learning of Medical Science.

Computing Infra

The institution also feature the finest computing facilities with computer labs having state-of-the-art technological equipments, hardware, software and internet facilities. The institutes have 24 hours hi-speed connectivity of internet through leased line. Moreover, the institutes utilize college excel software in order to regularly update students' attendance record, performance report and to facilitate regular connection with their parents / guardians via intranet. The infrastructure enables the students to work on the latest software packages and programmes for studies.

Library

The state-of-the-art infrastructure includes a 'Learning Resource Centre' – the library at each institution, which provides students with an impressive array of date-bases in the safe and supervised environment. The libraries boast of a mammoth collection of more than 50,000 titles/books, magazines and journals. Book bank facility is also provided to each and every student. The students and faculty also have the access to the digital library through which they can access International Journals and Periodicals.

Moreover, the college library is a member of INDEST, DELNET (Developing Library Network) through which the students have access to and can issue books, articles, periodicals, etc. from premier institutes of the country. Nearly all the available newspapers are within the easy reach of the students.

Seminars / Conferences / Workshops

At Jeevan Jyoti Group of Institutions emphasis is repetitively given diverse methodologies of imparting knowledge, making it more interesting and affable to students. An exposure to interactive sessions and seminars conducted by the stalwarts of the healthcare interest and scholastic arena is always a bonus to the holistic maturity of a student. This way, it is determined that the knowledge of the lessons bestowed in the students and the functioning of the healthcare centers do not remain mutually exclusive to each other.

Seminars, Conference and workshops are organized where scholars and researchers from various reputed international universities share their views.

Hostel Accommodation / Amenities

“Home is not where you live, but where they understand you”. We at Jeevan Jyoti Group of Institutions understand & constantly strive to ensure the comfort of home at our place. We offer separate accommodations for boys & girls amidst an environment that simulates learning and provides ample scope for recreation. The boy’s & girl’s hostel have a housing capacity of around 800 students living amicably under the supervision & care of wardens & an efficient team of care takers.

Core Facilities:

- Hygienic & Healthy food at nominal charges offered at spacious & hygienic dining halls.
- 24 x 7 Water Supply
- 24 x 7 power supply with generator backup to avoid disturbances in case of contingencies.

Other Amenities:

- Separate TV rooms and common rooms for indoor games.
- Connectivity – Telephone facilities, Wi-Fi ensuring 24 x 7 internet facilities.
- Medical facilities – First aid facilities, Doctor’s room, availability of ambulances round the clock.
- Fitness Centers – Gymnasium.

Transportation Facilities

More than 10 buses operate everyday for the students and staff. The day scholars living in areas away from the campus are picked-up and dropped from their residences in this safe and secure mode of transport.

Wi-Fi

Wi-Fi not only gives our students access to high speed internet but also many value added services which are utilized for their course work. This provides students with a seamless connection for browsing presentations and documents throughout the campus.

Gymnasium

Well equipped gymnasiums have been appended to all our hostels in the campus. The gymnasium has state of art equipments for the overall development of students.

Food Courts

This is one area of the campus which never seems to be deserted. A popular hang out for the students, the food court offers a wide choice of items to cater to the student’s tastes. A high standard of hygiene is maintained, ensuring the satisfaction and contentment of students.

Sports and Recreation Activities

A massive sports arena is built within the campus. Spacious and sophisticated courts have been designed keeping in mind the benefits students can obtain from sporting activities. There are ample basketball, tennis, badminton, and volleyball courts to suit the precise.

Beyond Syllabus

Academics form just one facet of the life at Jeevan Jyoti Group of Institutions. We encourage the students to nurture their lives outside classrooms as well. A significant part of the student's year encompasses coordinating and participating in the abundant cultural activities. We believe that being involved in organizing such events imbues a healthy will of competition and cultivates team spirit. Events ranging from quizzes, debates, dance, writing, drama, music and literary activities hone an individual and ample platform is provided to showcase their flair. Our foresight is that 'the ultimate persona of a student which emerges out of our college should have equal potency in all the fortes.'

Scholarships are given to deserving students and prizes to toppers in Capping Ceremonies by Jeevan Jyoti Institute of Paramedical Sciences and govt. of U.P. and govt. of India.

Placements

The constituent of successful placements is not only the scholastic achievements but also auxiliary factors like communication skill, diction, vocabulary and aptitude. Therefore, we groom our students accordingly.

Over 95% students of our institute have secured a place for them in the various hospitals in Allahabad, U.P., India, Middle East and abroad
