INTRODUCTION

DR. VANDANA BANSAL – MBBS, DGO, MS, D.Phil (Gold Medalist) FCGP is one of the renowned and Senior Gynaecologists and Obstetricians of the state of Uttar Pradesh. She is specialized in Laparoscopy and Hysteroscopic Surgery – since 18 years. Besides, she is Director of 500-bedded, multi-speciality **Jeevan Jyoti Hospital, Arpit Test Tube Baby Centre & Vandana Women's Hospital Allahabad**. Jeevan Jyoti Hospital has completed 25th years in Oct-2013 Silver Jubilee celebration.

The old adage “every big success has a small beginning” is what that truly defines the unflagging efforts of the doctor couple who disowned the proverbial status of ‘born with silver spoon’ and nestled in one of the oldest religious and historical cities-Allahabad to ‘serve the poor’.

Their mettle was more appreciated specially at the time in 80s when the young technocrats like doctors and engineers had a craze to go aboard in the pursuit of joining the ‘neo-rich club’. Overlapping with apprehension and hope, Dr. Vandana Bansal, an infertility expert and Dr. A.K. Bansal, a laparoscopic surgeon decided to swim against the tide by setting up a small clinic in Sangam city.

The young medico couple had set up a small 10 bedded clinic in Allahabad in 1988. While medicine (treating patients) is the duo's karma, dreaming about establishing a chain of world class hospitals is their vision.

Dreamt of setting up a hospital on the lines of Mayo Hospital of USA in Allahabad. Dr. Vandana restless medico have an excellent team and thus have been able to write what one calls-the success story”.

Dr. Vandana plays the role of visionary and Dr. A.K. Bansal executes these plans and ideas. Passionate for innovations and experimenting with new ideas. On the other hand Dr. A.K. Bansals foresightedness and hard work makes it possible to realize the goals and plans.

Their sheer hard work and determination finally bore the results with world class 500 bed Jeevan Jyoti Hospital and Arpit Test Tube Baby Center, the brain child of infertility expert and senior gynaecologist Dr. Vandana S. Bansal and laparoscopic surgeon Dr. A.K. Bansal. The duo has made the Arpit Test Tube Baby Center, a pet word for every woman who wants a baby. With international success rate, around 3,000 couples have

so far been returned from the center with a smile on their faces and baby in their lap within the span of 13 years. The center has patients coming from Gulf Countries, Middle East and European countries.

Guru Gobind Singh Memorial "Vandana Women's Superspecialty Hospital" Arpit International Fertility Institute & Test Tube Baby Centre in Allahabad, a new venture of the Jeevan Jyoti Group has been setup under the active supervision of Dr. Vandana Bansal. Updating with advancements in the field, the couple do not miss any national or international seminar and have also organized a good number of international and national seminars on various aspects of medical sciences.

The group has a nursing and paramedical school and a public school. It is planning to setup a chain of infertility clinics across the country. Besides these, work on setting up a university is on. A lot of research is being done in the field of infertility management by Dr. Vandana and her team. It is because of her research work and sincerity that Dr. Vandana has received so many awards including Rashtriya Ratna.

Jeevan Jyoti Hospital, Allahabad has successfully set the Guinness New World Record of in relation to operation on behalf of 10 years old girl on 13th April 2011 in a seven hours long operation at Jeevan Jyoti Hospital, Allahabad. The most hydatid cyst removed is 296 by our Jeevan Jyoti Hospital, Allahabad India on 13th April 2011.

Guinness World Record (GWR) made at Jeevan Jyoti Hospital, Allahabad (JJH) in cooperation with Jeevan Jyoti Research Centre (RC) and Jeevan Jyoti Charitable Trust, Allahabad (JJCT).

MADAM TARIKA VARA
17 HANOVER SQUARE, LONDON CAME
VIA DUBAI TO PRESENT
INTERNATIONAL AWARD GUINNESS BOOK OF WORLD RECORD
TO
DR. A.K. BANSAL of JEEVAN JYOTI HOSPITAL, ALLAHABAD
DR. VANDANA BANSAL ON 09TH NOVEMBER 2012.

The creators of world record is Jeevan Jyoti Group of Hospitals, Allahabad. When it comes to healthcare potential, U.P. cannot be found lacking, in the world scenario. But this potential has meaning only if supported by opportunity. Where Dr. A.K. Bansal & Dr. Vandana Bansal succeeded from creating new records, bring development to the existing infrastructures in healthcare, helped people of not only Uttar Pradesh but whole India and abroad named and famed and leaving no stones unturned to help Uttar Pradesh and India prosper in healthcare projects.

We all know that, humble way of thanking for those who are making sure that our Uttar Pradesh and our nation is moving forwards towards healthcare projects for a better tomorrow are working tirelessly in the field of health.

Allahabad, one of the large cities of U.P. state of India, is in global map for Maha Kumbh, garlanded by three rivers The Ganga, The Yamuna and the Mythical Saraswati (SANGAM), is famous for its rich intellectual past heritage and for giving in our country and to the world several eminent personalities in different walks of life. As Allahabad is significant so also Jeevan Jyoti Group of Hospitals, its research centre and charitable trust (SANGAM) excelled in health scenario which got place in Guinness World Record has been awarded the distinction of being receiver of Guinness World Record certificate.

Pt. Keshri Nath Tripathi earlier Sr. Advocate of Hon'ble High Court Allahabad, speaker of Vidhan Sabha Uttar Pradesh, Governor of West Bengal has inaugurated and participated in many programmes of Jeevan Jyoti Group of Hospitals and appreciated endeavours of Dr. A.K. Bansal and Dr. Vandana Bansal.

JEEVAN JYOTI HOSPITAL 162 Bai Ka Bagh, Lowther Road, Allahabad-211003 (U.P.) INDIA is a name to reckon for healthcare services provided in Uttar Pradesh and central India since 1988. From 08 beds in 1988 to 500 beds in 2014 having almost all facilities under one roof, with an advanced multispeciality and superspeciality hospital, diagnostic centre, IVF centre and a research centre along with paramedical & Nursing School with different charitable ventures, training centre for various government projects. Serving 45 TPA's RSBY, NRHM and other government projects and 30 government organizations as healthcare service provider and dream to set up a Medical University very soon.

Mission is to bring healthcare of international standards within the reach of every individual. In this process Jeevan Jyoti Group of Hospitals, Vandana Women's Hospital, Arpit Hospital Ltd. was established and became the only hospital in Allahabad, only hospital in U.P. state, only hospital in India, only hospital in Asia, only hospital in the continent to get place in Guinness World Records.

Guinness World Record is trusted as the ultimate authority on human achievement and world we live in. *Guinness World Records* bestowed the record of "Person with the most records".

In 2005, Guinness designated 9 November as *International Guinness World Records Day* to encourage breaking of world records; it was described as "phenomenally successful".

Jeevan Jyoti Hospital, Allahabad has successfully set the Guinness New World Record of in relation to operation on behalf of 10 years old girl on 13th April 2011 in a seven hours long operation at Jeevan Jyoti Hospital, Allahabad. This is a great news for not only India but also for "Whole of the World". While patient is quiet hail and hearty till date, she is very much relieved of her problem. This great feat was achieved for the first time in the world and it is being reported in the Medical Sciences literature also.

In order to commemorate this "Grand World Record Beating Achievement" and to give moral encouragement and support to the patient, **A Very Poor Girl**, who played a key role in this world record, Jeevan Jyoti Charitable Trust beared entire expenses of the operation as usual of their activities as charitable trust, serving the poor regularly since a decade.

- To promote development of scientific temper and health science research.
- To encourage inculcation of Social Accountability amongst hospital staff, students, teachers and institution.
- To support Quality Assurance for all its educational programmes.

- To arrange free treatment for BPL patients.
- HIV, AIDS, Cancer Detection camps arranged in slum areas.
- Free health checkup camps arranged regularly.

OBJECTIVES FROM CONCEPT

She has arranged unique conferences, CME's workshops many a times jointly organized, monthly quarterly, even yearly events. Experts from fields of global and national repute, IVF specialists obstetrics and gynaecologists, radiologists, surgeons, pathologists, scientists and other faculties ancillary service providers like nurses, technicians, paramedics, patients care givers, advocacy groups, NGO's policy makers are affiliated partners, who are backbone of Jeevan Jyoti Group of Hospitals. From concept to progress, staffs arrange and invite conference/CME delegates. At the centre of the whole exercise are the patients. In recent times she has realized that collaborations pays rich dividends. So The Apollo Clinic is being run by Jeevan Jyoti Group of Hospitals at Allahabad (U.P.). Regular camps, free health checkups, research, mobile ambulance service, healthcare for athletes. All successes of activities are measured by the level of database. Every advertisement, every banners, posters, pamphlets, leaflets, presentations, deliberations have the power to start a new journey. Pre conference workshops, hands on training and close interactions with faculties, have shown how to sow the seeds for many more activities to be done in future. In the journey of over 25 years, inspired by response and unconditional support from across the country and abroad, daunting challenges made her strong enough to run unparallel institutes for healthcare of International standard.

Motto of the Organization

“Right for Rightful Health Science”

This called for very close interaction among professionals and experts. Keeping this in view a series of CME's workshops are conducted in Medical, Dental, Ayurveda Naturopathy and Yogic Sciences, Physiotherapy, Nursing Paramedical faculties to bring about uniformity. The recommendations made during the workshops, seminars were valuable to standardize and healthcare developments.

The nursing and paramedical institutes has introduced a system of registration of dissertation topics after review by a multi-disciplinary synopsis committee constituted by the hospital consisting of subject specialists. The observations made during the review were informed to every one through synopsis evaluation checklist.

Hospital has developed a state of the art Digital Network for Health Sciences Information resources for the benefit of all. It has been developed with necessary networking infrastructure and health information resources. It provides E-mail and Internet connectively to all its affiliated departments. To facilitate remote access for health information and resource sharing through the network based online information retrieval systems.

Latest Developments

- The hospital has established ten regional centres.
- A pilot project for conduction online is under consideration for all facilities.

Endowment Instituted

Endowment has been instituted for award of Gold Medals Subject wise under medical, dental and nursing faculties. There is also a cash price under faculty.

Certain Unique Functions

1. The hospital has initiated steps to start Eco clubs.
2. The hospital has also initiated to start Red Cross Society's Wings.
3. A joint venture between Foundation for Re-vitalization of Local Health Tradition (FRLHT) and work has been taken up for creation of database CD on medicinal work and hospital administration.

Major Achievements

1. The Hospital has introduced Bar Coding System in hospital. By this hospital hopes to eliminate/minimize the human involvement and reduce the time taken for the emergency treatment.
2. Promoting youth activities like NSS, Culture and Sports as Co-curricular activities bringing Medicos closer to the society in cooperation with Khelgaon Gymnastics Allahabad.

Experienced excellent consultant staffs headed the Directors towards achieving excellence setting unique goals and application towards improvement with the administration acumen they have made the hospital sail smoothly with a wisdom and gait of an elephant organization royal march is on.

Arpit International Fertility Institute & Test Tube Baby Centre

Arpit Test Tube Baby Centre, a unit of Jeevan Jyoti Group of Hospitals, Allahabad was established on 18th December, 1999 and inaugurated by Shri Suraj Bhan Ji the then Governor of U.P. and Dr. Murli Manohar Joshi the then Union Minister HRD, Science & Technology Govt. of India.

Arpit Test Tube Baby Centre is established with the aim to provide full range of management of couples suffering from infertility with the latest state of the art technologies in the field of reproductive medicine. The recent advances in the field of assisted conception / reproduction are added time to time. The centre offers preliminary investigations, ovulation induction, secondary sperm function testing, intrauterine insemination (IUI), donor sperm treatment, in-vitro fertilization (IVF), intracytoplasmic sperm injection (ICSI), IMSI, IVM, laser assisted hatching , male infertility & impotency treatment, oocyte donation and cryo-preservation of sperm and embryos etc.

IVF Success rate of Arpit Test Tube Baby Centre is consistently very high and at par with International Standard.

There is a future because a natural substance met a natural substance in an unnatural place.

It has been our continuous endeavor to bring latest techniques to Allahabad and keep our self abreast & updated with the fast changing scenario international in the field of infertility.

Educational Approaches

Jeevan Jyoti Institute of Medical Science – B.Sc. (Nursing), GNM, ANM & Paramedical Courses:

Works on the motto of holistic education for its students. Hence every measure is taken to assure that their progress does not remain constrained to the classrooms. Ample scope for extracurricular activities along with classroom syllabus keeps the student at

par with best of the institutes. The campuses are ideally located and landscaped stunningly to create a peace of mind and make the environment academically inductive.

Vision & Mission

Our Vision

We aspire to reassert the significance of high quality education by producing competent nursing & paramedical who can shape the destiny of our nation into a stronger and developed stature.

We envisage that high quality education using interactive methodologies will equip students to excel as a professional. The values instilled among students while imparting education, will strengthen the moral and ethical fabric of the nation and revive the human spirit. The zeal of competitiveness will always be positive and setbacks will only be catalysts for greater achievements.

With these beliefs, the Jeevan Jyoti Group of Institutions will strive towards faster evolution and will make in marks on the Indian & Global academic map.

Our Mission

We at Jeevan Jyoti Group of Institutions aim at creating a workforce of professionals with analytical skills who can dream a better world and transform the dream into reality.

We have created a dynamic and collaborative climate to broaden our students in hospital competence; and build an institute that is resilient, flexible and productive. We are recognized for high ethical standards and responsiveness to the social environment in healthcare.

Academic Support System

Academic System is the core, the backbone of an academic institution. It determines the quality of academic delivery. Vision for achieving excellence by providing outstanding education has driven Jeevan Jyoti Group of Institutions to adopt an academic system that meets the global standards. At Jeevan Jyoti, the academic system not only fulfills the needs of multi-skilling and broad based knowledge but also develops core competence in the students. The four basic ingredients of contemporary education system viz., faculty, students, infrastructure and curriculum are perfectly blended to ensure our mission of creating a dynamic collaborative climate.

Instructional Methodology

- The faculty at Jeevan Jyoti Group of Institutions use innovative teaching methods in synergy with research knowledge and corporate experience to make the strategy and experience thought provoking and global in its perspective. A variety of strategies and methods are used which cater to multiple learning styles to help students retain information and strengthen understanding and to ensure that all students have equal opportunities to learn.
- The education system and teaching methodology is uniquely designed to articulate various facets of the identified Key Result Areas (KRAs), on the pattern of continuous evaluation and monitoring system with credits allotted for each 'Class-Test Cycle' followed by a 'Mid-Term-Examination'. This system boosts hard work, creativity, knowledge and discipline not only in students but also in faculty ensuring an enviable state of alertness and confidence.

Awe-inspiring Academic Infrastructure

Jeevan Jyoti Group of Institutions inspiring infrastructure provides the students with an excellent environment to pursue their academic passion and for outstanding academic delivery. The campuses span a big amount of land Apno Gaon, Rewa Road, Allahabad comprising lush green lawns dotted with hi-tech laboratories and modern buildings. The campus offers a fusion of environment, resources and support to maximize the quality of the student experience.

Life at Jeevan Jyoti Group is an amazing experience on the beautiful campus, which is an example of architectural innovation and functional convenience. The Wi-Fi enabled campus provides essential energy for a dynamic academic community. The campus has an entity and a significance that goes beyond the books and classrooms.

Learning Infra

The spacious lecture halls, e-class rooms, Conference Halls, Induction Halls, Auditorium, Meeting rooms are well equipped with all latest gazettes, viz., ceiling mounted LCD Projectors, OHPs, Slide Projectors and other Audio-visual equipments providing environment conducive for teaching and learning of Medical Science.

Computing Infra

The institution also feature the finest computing facilities with computer labs having state-of-the-art technological equipments, hardware, software and internet facilities. The institutes have 24 hours hi-speed connectivity of internet through leased line. Moreover, the institutes utilize college excel software in order to regularly update students' attendance record, performance report and to facilitate regular connection with their parents / guardians via intranet. The infrastructure enables the students to work on the latest software packages and programmes for studies.

Library

The state-of-the-art infrastructure includes a 'Learning Resource Centre' – the library at each institution, which provides students with an impressive array of date-bases in the safe and supervised environment. The libraries boast of a mammoth collection of more than 50,000 titles/books, magazines and journals. Book bank facility is also provided to each and every student. The students and faculty also have the access to the digital library through which they can access International Journals and Periodicals.

Moreover, the college library is a member of INDEST, DELNET (Developing Library Network) through which the students have access to and can issue books, articles, periodicals, etc. from premier institutes of the country. Nearly all the available newspapers are within the easy reach of the students.

Seminars / Conferences / Workshops

At Jeevan Jyoti Group of Institutions emphasis is repetitively given diverse methodologies of imparting knowledge, making it more interesting and affable to students. An exposure to interactive sessions and seminars conducted by the stalwarts of the healthcare interest and scholastic arena is always a bonus to the holistic maturity of a student. This way, it is determined that the knowledge of the lessons bestowed in the students and the functioning of the healthcare centers do not remain mutually exclusive to each other.

Seminars, Conference and workshops are organized where scholars and researchers from various reputed international universities share their views.

Hostel Accommodation / Amenities

“Home is not where you live, but where they understand you”. We at Jeevan Jyoti Group of Institutions understand & constantly strive to ensure the comfort of home at our place. We offer separate accommodations for boys & girls amidst an environment that simulates learning and provides ample scope for recreation. The boy’s & girl’s hostel have a housing capacity of around 800 students living amicably under the supervision & care of wardens & an efficient team of care takers.

Core Facilities:

- Hygienic & Healthy food at nominal charges offered at spacious & hygienic dining halls.
- 24 x 7 Water Supply
- 24 x 7 power supply with generator backup to avoid disturbances in case of contingencies.

Other Amenities:

- Separate TV rooms and common rooms for indoor games.
- Connectivity – Telephone facilities, Wi-Fi ensuring 24 x 7 internet facilities.
- Medical facilities – First aid facilities, Doctor’s room, availability of ambulances round the clock.
- Fitness Centers – Gymnasium.

Transportation Facilities

More than 10 buses operate everyday for the students and staff. The day scholars living in areas away from the campus are picked-up and dropped from their residences in this safe and secure mode of transport.

Wi-Fi

Wi-Fi not only gives our students access to high speed internet but also many value added services which are utilized for their course work. This provides students with a seamless connection for browsing presentations and documents throughout the campus.

Gymnasium

Well equipped gymnasiums have been appended to all our hostels in the campus. The gymnasium has state of art equipments for the overall development of students.

Food Courts

This is one area of the campus which never seems to be deserted. A popular hang out for the students, the food court offers a wide choice of items to cater to the student’s tastes. A high standard of hygiene is maintained, ensuring the satisfaction and contentment of students.

Sports and Recreation Activities

A massive sports arena is built within the campus. Spacious and sophisticated courts have been designed keeping in mind the benefits students can obtain from sporting activities. There are ample basketball, tennis, badminton, and volleyball courts to suit the precise.

Beyond Syllabus

Academics form just one facet of the life at Jeevan Jyoti Group of Institutions. We encourage the students to nurture their lives outside classrooms as well. A significant part of the student’s year encompasses coordinating and participating in the abundant cultural activities. We believe that being involved in organizing such events imbues a

healthy will of competition and cultivates team spirit. Events ranging from quizzes, debates, dance, writing, drama, music and literary activities hone an individual and ample platform is provided to showcase their flair. Our foresight is that 'the ultimate persona of a student which emerges out of our college should have equal potency in all the fortes.'

Scholarships are given to deserving students and prizes to toppers in Capping Ceremonies by Jeevan Jyoti Institute of Paramedical Sciences and govt. of U.P. and govt. of India.

Placements

The constituent of successful placements is not only the scholastic achievements but also auxiliary factors like communication skill, diction, vocabulary and aptitude. Therefore, we groom our students accordingly.

Over 95% students of our institute have secured a place for them in the various hospitals in Allahabad, U.P., India, Middle East and abroad

ACHIEVEMENTS

Dr. Vandana Bansal and her team appeared in **Guinness World Record** for doing surgery of maximum number of Intracranial cysts removed from a 10 years old girl, on 13 April 2011.

She has established the first and the best "Arpit Test Tube Baby (IVF) Centre" in thousand miles radius. She has got the honour of adding more feathers in the glory of holy Allahabad by giving **First IVF Baby, First IVF Twins, First IVF Triplets** and **First ICSI Baby** to the city.

She had joined hands with **SIFPSA** (State Innovations in Family Planning Services Project Agency) to run **JJCT SIFPSA TBA TRAINING PROJECT** to train the generally illiterate Birth Attendants (Dais) of villages of twenty blocks of Allahabad. The Project trained around 3000 Dais regarding the correct procedure of delivery in homes while maintaining sterility.
